Motueka 2030: A stronger future together

March 2015: Pre-interview Survey

Explanation: Vision Motueka is looking for ways to secure the future of the Motueka area against the sort of decline being experienced in other N.Z. districts. This survey is designed to help discover what the community would like to see happen to make the Motueka ward one of the best places to live and work.

Here are a whole lot of ideas in no particular order. Please rank them from 0 to 5 where 0 = not the least interest or concern to 5 = a great idea that should be followed up as a first priority. Don't worry about whether you think they are possible or not. This is an initial "blue sky" exercise.

Finally, in the far right column select your **7 top-most priority items**. For each of them, rate them in order so as to put a number from 1 (absolute top priority) to 7 (7th highest priority). These should be based on what you think they would be of the greatest benefit to the greatest number of people.

Rows are provided for you to add ideas to the list. Add as many as you like.
